

1. Script for your video resume

Hello, my name is Kaffah An Nas. I am Information System student majoring in Data Science at President University. I have own experience in Python, SQL, Power BI and Streamlit and recently develop a machine learning web dashboard using Django to analyze student learning behavior. I'm passionate about solving real world problems through data and enjoy working in collaborative teams. I'm excited about the opportunity at Toyota. I believe my skill adaptability and eager to learn make me strong fit for this internship. And I'm looking forward to growing professionally through this experience. Thank you for consider my application. Thank you.
