

PERSONAL STATEMENT

Dear PUMA COMPUTING,

I would like to express my interest and motivation to join the computing organization in the art and sport division. I believe that technology and the world of arts and sports have immense potential to synergize, create extraordinary experiences, and inspire people to achieve their best.

I also want to emphasize my enthusiasm for teamwork and collaboration. I am confident that within a strong team, we can achieve much greater results than we can individually. I am ready to learn from my peers, share my knowledge and experiences, and collectively innovate.

By joining the art and sport division of the computing organization, I hope to make a meaningful contribution, continue learning, and participate in projects that inspire and transform. I am confident that this is an exceptional opportunity to merge my interests in computing, art, and sports, and I am very excited to be a part of this team.

Thank you for considering my application. I look forward to positively contributing to the efforts of this organization and achieving remarkable goals together.

Sincerely,

KAFFAH AN NAS
